Is published every Saturday morning.

TERMS:
One year, by mail or express, single copy.....25 cents
Six months.....15.....\$1.75
Three months.....10.....\$1.00

Advertisements inserted at reasonable rates

ALL KINDS OF JOB-WORK done to
Compete with San Francisco in Price,
Style, and Elegance of Workmanship.

Everybody is wondering why the BAZAAR
is not here yet. The reason is that they
must clear out their Spring and Sum-
mer goods to make room for the immense
stock of Fall and Winter goods which
will soon receive.

The BAZAAR is now giving 12 yards Best
American Prints for \$1. Also 6 yards
French and American prints for \$1. At the
corner of Main and Requena streets, oppo-
site the U. S. Hotel.

NEW ADVERTISEMENTS.

The Best Engraving Done in Los
Angeles is executed by W. B. TUL-
LO. Call and see specimens at
Bush's Jewelry Store.

ROOMS FOR RENT.

HAVING LEASED THE TWO UPPER
STORES of Perry & Riley's new building,
I will be glad to let them to you at
single, furnished or unfurnished, by the
month or year. The rooms are first class,
every respect. Apply now and after Monday,
October 18th, to J. H. LEECH,
Real Estate and Business Broker,
No. 10, at head of stairs.

Bring on Your Jewelry Job-
bing that others say cannot be
done in Los Angeles.
C. H. BUSH.

Los Angeles Herald.

CITY AND COUNTY OFFICIAL PAPER.

SUNDAY..... OCT. 18, 1874.

In the Oregon Assembly, woman suffrage went down on a vote of 48 to 13.

It is not true that the large number of Masons recently collected in San Francisco were induced to go there under a promise of work on the City Hall.

THERE are 20,000 Grangers in the United States. These lodges shelter a great many Granger voters that will be cast for the people—the whole people.

The Alta says everybody in Los Angeles is "on a wild hunt for a dollar." It is not probable that any well-informed seeker will extend his search for a dollar to the Alta office.

ACCORDING to the Evening Express it is high-toned journalism to utter wilful falsehood and repeat it day after day. But it is "hoodlum journalism" on the part of the HERALD to brand that falsehood by its proper name.

A Partial Admission.

It is something to the ex-gaager organ that it partially admits the falsity of its statement that Mr. BEAUDRY took the lead in vacating the Health Office, by explaining its

meaning to be that when Mr. BEAUDRY took part in any proceedings of the Council, it was a leading part.

This is an unwilling—perhaps unintentional—tribute to Mr. BEAUDRY's intelligence, and if the Express had gone on and explained that Mr. BEAUDRY did not oppose the ordinance as a whole nor desire the vacating of the Health Office for an indefinite period, it would have shown a familiarity with truth that could not but astonish both itself and its friends.

Mr. BEAUDRY is in favor of health ordinances and a Health Officer, because he believes such a law and such an officer necessary to the health of the city. Are the motives of our cotemporary as honest, or are they so mingled with political clap-trap, ring influence and individual prejudice, that its real concern for the welfare of the city can hardly be separated from the mass of rubbish?

Impure Water.

While we are on the subject of cleanliness—a subject which just now is attracting more attention than any other one item of the catalogue to which our people are paying their respects—it will perhaps, be as well to examine the water we drink. This once done, we need no urging to examine the sources from which it is brought, and when that examination is made, a great many people will give over the habit of drinking water altogether. It is well known that the water used in this city is impure—so impure as to endanger the health of those who drink it. It is not astonishing that this is so; on the contrary, the wonder is that it is not offensive both to the smell and taste. A gentleman who knows whereof he speaks informs us that no effort is made to keep children, fowls, grown persons or animals out of the reservoir in the northeastern part of the city. It is unprotected by cover or wall. The children bathe in it and the geese, ducks and other fowls are surrounding it with a plateau of guano. From the same source we learn that the fountain heads from which the water is supplied, near the Feliz ranch, are the resort of wash-women, the bathing-places of children, and the stamping-ground of cattle. We do not know who, if anybody, is to blame for this; but we do know that the water used by the citizens of Los Angeles is impure—alarmingly impure. We call the attention of our little cotemporary—the Express—to this great big nuisance, and respectfully suggest that perhaps it may contribute somewhat to the spread of the scarlet fever.

We and it.

The little Express labors hard to create an impression in the minds of its few readers that the HERALD is opposed to the enforcement of a health ordinance and to the appointment and maintenance of a Health Officer. The object sought to be attained by our cotemporary is well understood in this community. It is well known that its desire to injure the HERALD is greatly in excess of its ability to accomplish its purpose, and so long and persistent have been its efforts in that direction that its tirades against this paper now only excite a smile of contempt on the part of the reader.

The HERALD has ten readers where its little cotemporary has one. The HERALD has published more facts, sent forth more statistical and other information concerning Los Angeles valley, and has contributed more toward inducing immigration to this part of the State, during the past six months, than has been done by the Express during its existence of three and a half years. The HERALD has made more practical suggestions for the improvement of this city in one week than the Express is capable of doing in a century. The HERALD has presented more and stronger arguments in support of sanitary measures, health ordinances and a health office, than the Express ever dreamed of. The people know and say this.

We can therefore afford to smile at the false, malicious and withal senseless tirades of our little cotemporary. We shall continue to advocate such sanitary measures as, in our opinion, are best calculated to secure the health and happiness of all who dwell in our beautiful city. But in pursuing this course, we trust we shall be pardoned if we decline to consider it a part of our duty, to malign, slander and traduce those of our citizens who may chance to differ with us as to the best and most desirable plan of carrying out those measures. That policy seems to be the specialty of the Express and we have no inclination to interfere with its self-assumed prerogative.

Death of Special Legislation.

The decision of the Supreme Court in the case of San Francisco vs. The Spring Valley Water Company, kills the special legislation that now encumbers the statutes and will effectively cut off all future legislation of that character. As the people of Los Angeles have a case or two of this kind to dispose of, we make a few extracts from the opinion of the Court, which was written by Justice CROCKETT.

In the case of the Dartmouth College vs. Woodward, 523, it has decided by the Supreme Court of the United States that privileges secured by special Acts of incorporation constitute contracts, which were interpreted to mean that citizens of the United States which prohibits a corporation from passing laws impairing the obligation of contracts. This case was followed by numerous other decisions of like import, in the Supreme Court, and in almost every State of the Union, including New York, Massachusetts, Connecticut, Pennsylvania, Michigan, Iowa, Indiana, Illinois and Virginia.

Justice CROCKETT's Constitution, so far as it concerns the power of the Legislature to amend or repeal, is not content merely to reserve to the Legislature the power of amendment and repeal; but prohibits in terms the power to create corporations, and to grant franchises, except by special Act; and almost every State which has recently amended its Constitution has followed suit. The result of this is, that it is altogether incredible that in forbidding corporations, except for municipal purposes, to be created by special Act, it was intended to provide that the franchise, or power, which a corporate entity was created should be provided by general law; but that when thus formed, it should be controlled by special Act with any powers, however diversified, at the discretion of the Legislature.

Justice CROCKETT's Constitution, so far as it concerns the power of the Legislature to amend or repeal, is not content merely to reserve to the Legislature the power of amendment and repeal; but prohibits in terms the power to create corporations, and to grant franchises, except by special Act; and almost every State which has recently amended its Constitution has followed suit. The result of this is, that it is altogether incredible that in forbidding corporations, except for municipal purposes, to be created by special Act, it was intended to provide that the franchise, or power, which a corporate entity was created should be provided by general law; but that when thus formed, it should be controlled by special Act with any powers, however diversified, at the discretion of the Legislature.

The opinion of CROCKETT is contained in the case of the Dartmouth College vs. Woodward, 523, it has decided by the Supreme Court of the United States that privileges secured by special Acts of incorporation constitute contracts, which were interpreted to mean that citizens of the United States which prohibits a corporation from passing laws impairing the obligation of contracts. This case was followed by numerous other decisions of like import, in the Supreme Court, and in almost every State of the Union, including New York, Massachusetts, Connecticut, Pennsylvania, Michigan, Iowa, Indiana, Illinois and Virginia.

Los Angeles Herald.

CITY AND COUNTY OFFICIAL PAPER.

SUNDAY.....OCT. 18, 1874.

TERMS OF ADVERTISING.

ONE DOLLAR per square of ten lines, first insertion, and TWENTY-FIVE cents per square for each subsequent insertion.

LOCAL BREVIETIES.

Turner Hall concert, Monday evening—50 cents.

The Ventura will sail for San Francisco Monday.

Two nicely furnished rooms in a pleasant locality are for rent. See notice.

The Senator sailed for San Francisco and way ports yesterday afternoon.

We are indebted to the purser of the Ventura for late San Francisco papers.

Messrs. Hickman & Root opened the Grand Saloon, on Commercial street, last night with a roast turkey lunch.

The schooner Legal Tender sailed from Wilmington yesterday for San Buenaventura to take on a load of grain for San Francisco.

The exports from Los Nietos depot yesterday and the day previous were 187 sacks wheat, 225 sacks corn and 60 bags wool.

The only case before the District Court yesterday was that of Wilson v. Newman which was passed. The other Courts were all barren of items.

Miss Marston on Monday evening only.

The ladies concerned in the Orphans' Fair will meet at Turn-Verein Hall on Tuesday morning to conclude arrangements for the fair, which commences on the evening of the same day.

The usual services of the Congregational Church will be held to-day at 11 o'clock A. M. and 7:30 P. M., conducted by the pastor Rev. D. T. Packard. The subject of the evening discourse will be "The Three Ages of the World."

Remember the picnic of the Irish Literary Society in the Arroyo Seco on the 25th, and if you wish to enjoy a first-class affair, go. A band of music will accompany the picnickers and other promoters of mirth and gladness will not be wanting.

Look at the attractions presented in the advertisement of Montgomery Queen's circus, which appears on our second page this morning. Without doubt this is the largest circus and menagerie combination which has ever visited Southern California. It will be well worthy a visit from old and young. The tent will be pitched here on Wednesday and Thursday, the 28th and 29th of this month.

Heard Miss Marston Monday evening.

A new paper, styled *The Doctor*, made its appearance in our city yesterday. It is a little sheet, not much larger than your thumb-nail, and is to be published weekly, bi-weekly or monthly, to suit the convenience of the publisher. It will be devoted to the interests of the Lafayette Drug Store, and, as stated in the prospectus, "tolerates no suggestion and is closed to conviction." *The Doctor* is little, but loud.

Rev. Gustav Borchard, of the German Evangelical Lutheran Ministry of the State of New York and Missionary for Japan, is making a tour of Los Angeles. He was sent from San Francisco and Sacramento to Southern California to organize German churches in Los Angeles, Anaheim and San Diego. He will hold his first meeting in Good Templars' Hall to-day at 3 o'clock P. M.

Messrs. Eugene Meyer & Co., of the "City of Paris," are offering extraordinary bargains in the line of dress goods, shawls, silks, linens, and everything belonging to a well-assorted stock of dry goods, from pins up. Their stock is purchased direct from the manufacturer, and by advertising strictly to the one-price system, they are enabled to sell very far down in the scale of prices. Call at the City of Paris, and be convinced of the bargains offered.

Last appearance on Monday evening of Miss Marston; admission, 50 cents.

As another evidence of the fertility of tree-growth induced by our soil and climate, we mention a case of which we heard yesterday, which, of itself, speaks volumes in favor of our "New Italy." Last Spring, Captain Beane planted a small fig-cutting on the place of Judge King. It has now grown to the size of a man's wrist, and yesterday the Captain counted eighty-two ligs growing on the single stalk—and this was all effected in one Summer's growth.

The second grand sale of Downey City property will take place next Tuesday in this city, on the corner of Spring and Court streets, opposite the Herald office. A large number of lots will be offered from twenty-five to seventy feet front and many desirable suburban lots from one-half to two acres in size. It will be remembered that the first sale passed off with remarkable success, the bidding being active and good prices realized. The coming sale will doubtless be even more successful than the first, as the property to be disposed of has been increasing in popular esteem daily.

Prof. School at Turner Hall Monday evening.

An accident occurred in the blacksmith shop of Mr. Ranal, on Alameda street, yesterday which it is feared may be attended with fatal results to one of the workmen named Baker. A Spaniard, whose name we did not learn, brought a gun-barrel into the shop and requested Mr. Raynal to make a drill from it. The barrel was accordingly laid on the forge and heated when it exploded, driving the charge into Baker's thigh who, as it happened, was standing in range. Dr. Shorb was summoned and administered the necessary treatment to him.

Miss Marston, Prof. School, Prof. Havell and Mr. Morse in an unequalled programme on Monday evening; admission, only 50 cents.

The visiting party of railroad officials made a trip to Anaheim yesterday on a special train. They are making a thorough reconnoitre of our section, and doubtless much good will result in time by way of increased railroad facilities.

Rev. J. B. McFerrin, D. D., of Nashville, Tenn., will conduct the services of the M. E. Church South to-day at Grand Hall, Main street, at 11 A. M. and 7:30 P. M. The communion service will be celebrated during the morning service.

A four-horse team attached to a hay wagon created quite a flurry of excitement on the corner of Spring and Temple streets yesterday, by improvising a first-class runaway. The team started from Main street somewhere above the junction with Spring, and as they came down the street turned upon the sidewalk in front of a hardware store. After smashing a stove and a truck and making a general scattering of the display goods, they rounded the corner and started up Temple street, where they were soon stopped. No particular damage was done except the smashing of the hardware and a few scratches and bruises on one of the horses.

Died in the Street.

Yesterday afternoon as Dr. Stanway and wife were riding up Main street in front of Col. Warner's house, they noticed a man lying in the road. They were about to pass, taking it for a case of drunkenness, when Mrs. Stanway thought she saw something more serious in his appearance, and at her solicitation the Doctor alighted from the buggy and examined him more closely. Somewhat to his surprise the Doctor found the man in a dying condition. He at once summoned assistance and had the unfortunate wayfarer carried into Col. Warner's house, where, in a few moments he expired. Coroner Richardson was called and proceeded to search the body of the dead man for evidences of his identity. He found only a few trinkets, such as generally carried in the pocket, and a certificate of citizenship. The certificate was issued by J. A. Fifer, Clerk of the Eleventh Judicial District Court, of Orange county, and Peter Maguire, a subject of the Empire of France, bearing date of July 16, 1867. The deceased was probably between forty and fifty years of age; he was much reduced in flesh, and bore the marks of dyspepsia or consumption. The Coroner will hold an inquest on the body at Col. Warner's house this morning at 9 o'clock, and he wishes to make a full and complete investigation of the case. If any in the city are acquainted with the deceased they will confer a favor by reporting at the inquest.

Turn-Verein Entertainment and Ball.

The attendance was very fair at the entertainment and ball given by the Turn-Verein Society at their hall last night. The evening's amusement commenced with a German play entitled "Splitter and Balken," which translated means "Splinter and Baked Beans," as near as we can ascertain at it. Not having a very profound knowledge of the German language we could not fully appreciate the play, but it was thoroughly enjoyed by our German friends who were present. This was followed by a laughable farce in English under the title of "Beautiful Forever." The comical incidents were drawn from the use of a certain hair-dye and complexion-wash which were warranted to make one beautiful forever and ever, and which ultimately turned the hair of one green and the face of another spotted like a case of measles.

And nobly did he lead where he asked them to follow. Materialism, in which some modern scientists find their last retreat from a personal God, had no place in him who thus wrote: "I have trodden the deck and the does when the life of earth seemed suspended; I have sought its companionship, and as I look on the radiant hemisphere circling above me, as if rendering worship to the unseen center of light, I have ejaculated in humility of spirit, 'Lord, what is man, that thou art mindful of him?'"

And Again: "A trust based on experience, as well as on promises, buoyed me up at the worst of times. Call it fatalism, as you ignorantly may, there is that in the story of every life which teaches the inefficiency of human means, and the present control of a supreme agency. See how often relief has come at the moment of extremity, in former strangely unsought, almost at the time of welcome; see still more how the hand has been strengthened to its increased burdens, and the heart cheered by some unconscious influence of an unseen power."

We commend this testimony of the Christian hero to every young man whom it may reach, both to rescue the tempted and to stimulate those who are trying to follow the bright example. Moral courage and simple faith in God make the highest type of manhood.—*Christian Intelligencer.*

The Preacher.

Away back in the early dawn of boyhood, about fifty years ago, says an old friend, preachers were venerated as something above common humanity, and their visits were events in the domestic circle long to be remembered. On such occasions the children were catechised, the Bible read and prayers were said. And while the old folks were talking about heavenly things, we little folks sat perched up as straight, and as still as so many bricks, and whether we enjoyed it or not, we had to listen. Every little eye was upon the preacher and his least gesture was noted and afterwards commented upon. It was the fixed opinion among us children that all the preacher said and did, whether praying, singing, preaching, or talking, was divine in its importation to heaven. We had no idea that they ever allowed themselves to laugh and talk about common matters.

On one occasion the good old minister, who was then our pastor was in an exceedingly humorous frame of mind, and laughed and talked about some things that the young folks could understand and enjoy. From that hour he was the fast friend of every child in the house; but previous to that we sorely dreaded his visits. Although it was a kind of holiday with us, yet it was mingled with sadness for our little minds, for the old minister was a sort of walking subject: the harps of angels or the howl of devils. After this visit however, we were ever anxious to see the minister come. It was a time of great pleasure with us after we learned that he could laugh and talk about something that delighted little folks. Ministers are mistaken if they suppose they can win the young heart to the church and Heaven by a dignified stern deportment. This genial old minister—James McFerrin—received into the church more young people than any man of his age. It was his manner as much as his power in preaching that won the young hearts. His son, Dr. J. B. McFerrin of Nashville, is in this city, and will preach at Leek's Hall at 11 o'clock A. M. to-day. There will be a treat to our citizens to hear him.

Miss Marston Monday Eve. 1874.

Miss Marston will make her last appearance here Monday evening, and offers the finest programme yet presented. In addition to Messrs. Morse and Havell, Prof. Schad, a pianist of reputation will appear. Miss Marston will sing the celebrated cavatina "Una voce poco fa," from the "Barber of Seville," a piece particularly suited to her flexible voice, and at the same time showing off her matchless low notes. It is very rare that a high soprano possesses such low notes as Miss Marston has, and this piece is well calculated to show them off to the best advantage. She will also sing the beautiful waltz, as sung by her at her last concert; this piece alone is worth the price of admission. She will also sing a number of those old familiar ballads, pieces that the public never tire of, and fact it seems impossible for this age to possess any taste like like. Such a programme as offered on Monday evening has never been equalled here. The admission has been placed at fifty cents to enable all to attend, and we predict a crowded house.

Miss Marston, Prof. School, Prof. Havell and Mr. Morse in an unequalled programme on Monday evening; admission, only 50 cents.

SUNDAY READING.

THE WOODMAN AND THE SANDAL-TREE.

Beside a sandal-tree the woodman stood And swing the axe; and, as the strokes were laid Upon the fragrant trunk, the generous wood With its own sweets, perfumed the cruel blade.

Go, then, and do the like; a soul endued With life from Heaven; a nature pure and great Will place its highest bliss in doing good.

And good for evil give, and love to hate,

St. Nicholas.

WITH ALL YOU MIGHT.

If you've any task to do, Let me whisper, friend, to you— Do it.

If you've anything to say, True and needed, yes, say— Say it.

If you've anything to love As a blessing from above— Love it.

If you've anything to give, That another's joy may live— Give it.

If you know what to light, Guiding others through the light— Light it.

If you've any debt to pay Rest you might night nor day— Pay it.

If you've any joy to hold Next your heart, but grow cold— Hold it.

If you've any grief to meet At a loving Father's feet— Meet it.

If you're given light to see What a child of God should be—

What a life be bright or dear, There's a message, sweet and clear, Whispered down to every ear— Hear it.

A Christian Hero.

The brief code of rules adopted by Dr. Kane, the Arctic explorer, for the government of the Grinnell expedition.

For the government of Sir John Franklin and his men, was characteristic of his moral heroism and religious principle. They were:

1. Implicit obedience to the instructions of the commander.

2. Total abstinence from intoxicating liquors, unless medically prescribed.

3. Entire disuse of profane language by every member of the expedition.

The restlessness daring of his nature, his scientific ardor and skillful training for great emergencies, were blended with those gentler impulses of a refined sensibility which fitted him to govern rougher men, and to triumph over obstacles which few would have wilfully encountered. Humanity and science went together, ever in deadly grave. But he went to its deep sleep without a fear and without regret. He had climbed the steep of fame, and from its summit looked calmly out upon an admiring world. And when, after long illness, his time had come, he breathed his life away to the sweet music of the twenty-third Psalm of David, and passed "through the gate into the city," while his tender mother was reading the Savior's words: "Let not your heart be troubled; ye believe in God, believe also in me. In my Father's house are many mansions," What a Pisgah was that death-bed to his departing spirit!

The Christian example shines amid the noblest records of human heroism. To American youth it may well become an inspiration in these times of fast living and of profane unbelief. He seemed almost afraid lest the Arctic snows and solitudes should be desecrated by the drunkenness and oaths of any of his men.

And nobly did he lead where he asked them to follow. Materialism, in which some modern scientists find their last retreat from a personal God, had no place in him who thus wrote:

"I have trodden the deck and the does when the life of earth seemed suspended; I have sought its companionship, and as I look on the radiant hemisphere circling above me, as if rendering worship to the unseen center of light, I have ejaculated in humility of spirit, 'Lord, what is man, that thou art mindful of him?'"

And Again: "A trust based on experience, as well as on promises, buoyed me up at the worst of times. Call it fatalism, as you ignorantly may, there is that in the story of every life which teaches the inefficiency of human means, and the present control of a supreme agency. See how often relief has come at the moment of extremity, in former strangely unsought, almost at the time of welcome; see still more how the hand has been strengthened to its increased burdens, and the heart cheered by some unconscious influence of an unseen power."

We commend this testimony of the Christian hero to every young man whom it may reach, both to rescue the tempted and to stimulate those who are trying to follow the bright example. Moral courage and simple faith in God make the highest type of manhood.—*Christian Intelligencer.*

The Preacher.

The Bible.

The Bible might have been uniform,

perfect, without varieties of text or statement, without faults of grammar or diction, without difference of style or degrees of doctrine. The Bible is nothing of the kind. It is full of the inconveniences of variety, paucity, silence, lights and shades, which indicate the hand of God in creation, and which indicate it no less in the uniform diversity of its own express revelation. In this lies its inexhaustible strength, its boundless versatility, its unbroken hold on the hearts and consciences of men—the true signs of a book wherein resides the voice of Him whose voice is as the voice of many waters, the language in which we all of us hear, "every man"—as it were—"in the tongue wherein we are born, the wonderful works of God."—*Edinburgh Review.*

CITY AND COUNTY OFFICIAL PAPER.

SUNDAY.....OCT. 18, 1874.

The Grangers Moving.

Many prominent Grangers are now in San Francisco, and there is a great deal of bustle about their headquarters on Leideldorf street. The new State Executive Committee met for the first time on Tuesday last and continued their meeting yesterday. Day before yesterday they conferred with the Directors of the Central Pacific Railroad at Mr. Stanford's office. The talk was conciliatory on both sides. The Committee said that they preferred, where practicable, to accomplish their ends by personal intercession, since the ways of legislation were long and devious and could not always be certain. The railroad men replied in the same spirit of caution and accommodation. The chief complaint was that the local freight rates were too high, which greatly diminished the farmer's profits, and it was agreed by the officials that they should be reduced to reasonable rates.

The Committee on Immigration met yesterday at headquarters. It consists of seven members. Three of those—Josiah Earl, O. L. Abbott and — Dean were present; the others were represented by proxy. The business of the Committee is to assist Grangers of other states to get homes in California, furnishing all essential information. Mr. Earl was appointed agent of the committee, and will take entire charge of the work in this locality. Mr. Abbott will act as Corresponding Secretary, and will furnish all those who desire to come to this coast, or those lately arrived, with details of soil, climate and available localities. The agricultural population of the State is increased about one thousand weekly by the arrival of emigrants.

The potato men and wool-growers met yesterday to organize an association for the more ready and convenient disposal of their produce, and to appoint an agent for the State, whose headquarters shall be in this city.—S. F. Chronicle, October 15th.

Articles of incorporation of the Livermore Water Company were filed in the office of the Secretary of State on Tuesday: principal place of business, Livermore, Alameda county; capital stock \$25,000, in shares of \$100 each.

Mocro county is indebted to Siskiyou county \$14,186 11. This indebtedness bears date from the organization of Modoc county, and is to be put in \$500 bonds, bearing interest at ten per cent, per annum.

LETTER LIST.
